Authorized to work in the US for any employer

Work Experience

Student

Nucamp coding bootcamp

January 2021 to June 2021

- Developed user interfaces with modern JavaScript frameworks, React, React Native, HTML5 and CSS3.
- Developed backend servers using Node, Express and MongoDB.
- Troubleshoot and debugged code ensuring compatibility with devices, browsers, and operating systems.
- Designed and implemented web components across new and existing designs.
- Studied basic project requirements with assigned technical lead and planned development strategies.
- Supported web applications and web sites through database development using MongoDB.
- Mastered emerging technologies to offer technical direction and creative solutions.
- Analyzed, prioritized and problem-solved several tasks concurrently with minimum supervision.
- Maintained quality assurance through code testing and cross-browser testing.
- Searched at library and in scholarly databases to locate necessary information for research projects.

Graphic Designer

Harvest Pictures

February 2016 to December 2020

- Completed in-depth product design tests with help of different software, models and design systems.
- Designed website layouts, templates and unique branded looks.
- Worked with clients to gather and define requirements, establish scopes and managing project milestones.
- Created broad range of work using various design techniques.
- Employed design fundamentals when selecting typography, composition, layout and color in design work.
- Created and updated trend boards, investigated changing conditions and recommended strategic adoptions to capitalize on projected changes.
- Applied creative expertise to present marketing concepts.
- Built corporate brands by designing cohesive looks between elements such as logos and letterheads.
