- Graphics Design

EXPERIENCE

Front End Developer
Antra Inc.
2021–

- Developed user interfaces with modern JavaScript frameworks, React, React Native, HTML5 and CSS3.
- Migrated a multi-page user experience in to a single page app.
- Troubleshot and debugged code ensuring compatibility with devices, browsers, and operating systems.
- Designed and implemented web components across new and existing designs.
- Worked on basic project requirements with assigned technical lead and planned development strategies using Agile methodologies.
- Integrated emerging technologies to offer technical direction and creative solutions.
- Maintained quality assurance through code testing and cross-browser testing.

Front End Developer
Harvest Pictures
2016–2020

- Developed code to convert design wireframes into website elements under supervision.
- Used frameworks for front end development such as Bootstrap and React, design software like Figma for layout.
- Ensured scalability of front end elements by optimizing them for loading speed and performance.
- Employed design fundamentals when selecting typography, composition, layout and color in design work.
- Developed reusable code that could minimize the time needed to complete projects in the future.
- Helped senior workers in debugging their code to improve website performance and user experience.
